

**3<sup>rd</sup> World Congress on**  
**Clinical Lipidology**  
**10 – 12 February, 2017 | Brisbane, Australia**

Warrick Bishop is a practicing cardiologist with an interest in cardiovascular disease prevention and a special interest in eating guidelines, cardiac CT imaging and lipid management.

He graduated from the University of Tasmania, School of Medicine, in 1988. He worked in the Northern Territory and subsequently commenced his specialist training in Adelaide, South Australia. He completed his advanced training in cardiology in Hobart, Tasmania, becoming a fellow of the Royal Australian College of Physicians in 1997.

He has worked predominately in private practise combined with public sessions. In 2009 Warrick undertook training in CT Cardiac Coronary Angiography, being the first cardiologist in Tasmania with this specialist recognition. This area of imaging fits well with his interest in preventative cardiology. He holds level B certification and membership of the SCCT. Society of Cardiac Computed Tomography

Warrick is a member of the Australian Atherosclerosis Society and a participant on the panel of 'interested parties' developing a model of care and national registry for Familial Hypercholesterolaemia. He has also developed a particular interest in diabetic-related risk of coronary artery disease, specifically related to eating guidelines and lipid profiles.

Warrick is an accredited examiner for the Royal Australian College of Physicians and is regularly involved with teaching medical students and junior doctors.

For over one year Warrick has also been a member of the Clinical Issues Committee of the Australian Heart Foundation, providing input into issues of significance for the management of heart patients.

In his free time, Warrick enjoys travel and music with his wife; he surfs and plays guitar with his children
