

3<sup>rd</sup> World Congress on  
**Clinical Lipidology**  
10 – 12 February, 2017 | Brisbane, Australia

Philip Barter graduated in medicine from the University of Adelaide and gained his PhD from the Australian National University. He has held positions in research institutes and universities in Australia and the US and is currently based at the University of New South Wales in Australia. He is a fellow of the Royal Australasian College of Physicians. He is immediate past president of the International Atherosclerosis Society. His basic research interests are plasma lipids and lipoproteins and their relationship with cardiovascular disease. His clinical research involves participation in large cardiovascular clinical outcome trials of lipid-lowering agents. He has published more than 350 peer-reviewed papers on plasma lipoproteins and their relationship to atherosclerosis.
